Level

# Course Levels

► How to decide?

► Ask subject teachers for recommendations & consider your interest/passion in the subject!

**IB or Level 1 = University prep (enriched)**

**Level 2 = University prep**

**Level 3 = College Prep**

**Level 0 = General**

# Required and Recommended Course Pre-Requisites

- ▶ It is important to be aware of pre-requisites prior to making choices
  - ▶ For example:
    - ▶ English 10 requires a pass in English 9
    - ▶ Pre-Calculus 110 requires a pass in Foundations of Math 110.
- ▶ Other courses will come with a recommendation from their department – this represents our best advice for the skills required to see success in these courses.
  - ▶ For example:
    - ▶ Physics 11 should be taken after Number Relations and Functions 10.

# Preparation for University

- It is imperative to check with the universities of your choice.
- A general guideline would be to have a **minimum of five “university-approved” credits for Maritime universities.** UNB requires six and a minimum of six for Ontario universities.
- It is an excellent idea to have at least **one more acceptable credit** than the minimum required.

# Preparation for college

- It is important to recognize that some colleges have very early admission dates.
- NBCC admissions is on a first come, first serve basis and begins in April of your grade eleven year for students. (Example: If you want to attend NBCC in September 2026, you should apply this April)
